# What is Slidev?

Slidev is a slide maker and presentation tool designed for developers. It includes the following features:

-  **Text-based** - focus on your content with Markdown, then style it later
-  **Themable** - themes can be shared and reused as npm packages
-  **Developer Friendly** - code highlighting, live coding with autocompletion
-  **Interactive** - embed Vue components to enhance your expressions
-  **Recording** - built-in recording and camera view
-  **Portable** - export to PDF, PPTX, PNGs, or even a hostable SPA
-  **Hackable** - virtually anything that's possible on a webpage is possible in Slidev

# Display an image

---

# Code

---

Use code snippets and get the highlighting directly!

```
interface User {  
  id: number  
  firstName: string  
  lastName: string  
  role: string  
}  
  
function updateUser(id: number, update: Partial<User>): void {  
  const user = getUser(id)  
  const newUser = { ...user, ...update }  
  saveUser(id, newUser)  
}
```

# Breadcrumb component usage

---

Use the `Breadcrumbs` component:

```
<Breadcrumbs />
```
